DETAILED ACTION

1. Claims 7-43 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention or species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on September 12, 2006.

Allowable Subject Matter

2. Claims 1-6 are allowed.

Claims 1-6 and subject matter are allowable because the prior art does not disclose, nor would it have been obvious to one of ordinary skill in the art to incorporate a nonzero percentage of boron into a phosphor otherwise meeting the requirements of the formula of the claimed phosphor (as required by claims 1-6). Additionally, the prior art does not disclose, nor would it have been obvious to one of ordinary skill in the art to have an amount of gadolinium relative to lanthanum, terbium and cerium greater than thirty percent (as required by claims 5,6).

Election/Restrictions

3. This application is in condition for allowance except for the presence of claims 7-43 directed to inventions/species non-elected without traverse. Accordingly, claims 7-43 have been cancelled.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. GB 2124243, USPN 4565948.
